SUMMERY

Enthusiastic recent Anna University graduate passionate about React.js frontend development. Eager to contribute effectively in a beginner role, leveraging theoretical knowledge and self-taught skills. Committed to continuous learning and embracing challenges to deliver innovative solutions in a dynamic environment.

EXPERIENCE

React.js Developer Intern
Slash Mark   02/2024 - 05/2024
 - Developed responsive and dynamic web applications using React.js.
 - Implemented industry best practices for clean, maintainable code.
 - Actively pursued self-directed learning and upskilling.
 - Demonstrated strong problem-solving and debugging skills.

PROJECTS

CryptoApp
Created a Crypto app for tracking cryptocurrency prices in real-time. Added features to monitor coin prices and trends. Improved user experience with easy navigation and intuitive design.

Expanse APP
Developed Expanse app for expense management using React.js, Redux Toolkit, and Tailwind CSS. Created an intuitive UI for expense tracking and history verification, optimising user experience.

Home Automation System
Developed a React.js web app for IoT Home Automation with Firebase integration, enabling intuitive device control .Enhanced user experience with real-time data sync and authentication for seamless remote management.

Canteen Management System
Built a web app with React.js, Redux, and Firebase, featuring Tailwind CSS styling. Enabled smooth food ordering and tracking, utilising Firebase for authentication, real-time database, and hosting. Tailwind CSS ensured a responsive And visually attractive UI design.

SKILLS

- **Programming Languages :** Python, JavaScript, Java (Basic), C (Basic), ECMA ES7+
- **Front-End Development :** JavaScript, React.js, Redux, Redux-toolkit, GSAP, Framer Motion, Next.js, HTML5, CSS3, Chart.js, Canvas(basic), Three.js, Responsive Web Development, React Native, TypeScript (basic), Axios.
- **Back-End Development :** Node.js, Express.js, API Development, Flask(basic), REST API, firebase
- **DATABASE :** MySQL, PostgreSQL, MongoDB, NoSQL, SQL, MS-SQL server
- **other Relevant Skills :** Git, GitHub, NPM, PIP, Visual Studio Code, JSON, JWT, Matplotlib, Machine Learning (basic), Word, PowerPoint, Communication and Collaboration, Problem Solving and Critical Thinking, Adaptability and Flexibility.

LANGUAGES

English (Proficient)   **Tamil** (Native)   **Hindi** (Basic)   **Telugu** (Basic)

EDUCATION

Bachelors of Engineering in Computer Science   11/2020 - 05/2024
C. Abdul Hakeem College of Engineering and Technology- Ranipet.   **8.1 CGPA**

HSC   06/2018 - 04/2020

G.V.C Hr Sec School - Arcot   **71 percentage**

TRAINING / COURSES

- Problem solving Python and MS SQL Server | by Apollo Institution,
- Machine Learning | Nan Mudhalvan Program By Infosys Springboard,
- Cloud Application Development | Nan Mudhalvan Program By IBM,
- Cyber Security | Nan Mudhalvan Program By Infosys Springboard,
